The Trainers

SP Yeo is a full time professional stock trader/educator and also a former stock educator with a local financial market data company where he conduct both fundamental and technical analysis course.

He had been trading stock for the last 15 years and had accumulated a lot of stock trading experience. Besides trading Singapore stock, he also trade USA Market, HK Market, Indices and Forex trading.

He is a swing trader and also an investor where he scouts for good fundamental stock to invest. His swing trading technique is base on technical analysis using tool such as chart patterns, candlestick patterns, support and resistance, indicators and moving averages. He had created a **Simple Trading System (STS)** which make it easy for trader to follow in the stock markets. He always believes that to be a good trader, a trader must spend a minimum of 10,000hrs in doing technical analysis using charts.

Dave Chang has spent over 10 years trading Singapore Stocks, CFDs, Futures and US Options.

Over the years, Dave has attended numerous courses, including the SIMEX Floor Trader Qualification Program, Index and Forex Future Trading Program, CQ smartrade [Singapore Stock] Trading Program, US stocks and Options Trading programs. He is also part of the member of the Technical Analysis Society of Singapore (TASS) and also a member of Association for Financial And Commodity Traders [Singapore] (AFACT).

Dave has a great passion to share his trading experiences with new traders and help them to understand the market and trade better
