Level: Foundational

Format: 2 Full Days + 2 Live Market Session

Limited Seats

Contact us at [enquiries@tradersroundtable.com.sg](mailto:enquiries@tradersroundtable.com.sg) for class schedule.

### Overview :

This course is designed for beginners who want to understand the Forex market or to trade the Forex market. In this course, you will learn the basic knowledge and skills required to trade the Forex markets using technical analysis. However, participants will also learn the fundamentals of the markets as well. While this course may seem “simple” at first, understanding these basics give you a very powerful edge in your trading skills. This is a foundation course that will provide a solid grounding for the intermediate course.

### **At the end of the course, participants would be able to:**

- Understand the Forex currency markets.
- Know the fundamentals that drive the Forex currency markets.
- Use technical tools to analyze the markets.
- Identify the trend in Forex market
- Identify Forex Support and Resistance Levels
- Develop your own Forex trading strategies.
- Understand money and risk management
- Know what is successful Forex trading
- Develop your own Forex trading plan

### **Expected Result:**

Understanding the basic of Forex and getting started with Forex Trading. You will design your personalize trading plan and your plan will be reviewed by Dr. Foo personally.

### **Who should attend:**

- People who want to start Forex Trading
- People who wants to improve their Forex trading
